THE NAME SAYS IT ALL

Another Iconic Animal Shelter for Protect Crete

Pictured below at the **Tidbinbilla Nature Reserve** in the ACT is **Damian Ross** of **CE Industries** and **Rod Prowd** of **Prowd Painters** both based in the ACT. Damian Ross had the solution for the ACT Government's new **Kangaroo Trauma Recovery Centre** when they asked for full protection against disease, microbes and animal fluid protection for not only the concrete floors but the timber walls as well. "With the past iconic animal shelters successfully completed with **Protect Crete's Medi-Vet** namely the **M1 Pavilion** at the **Melbourne Showgrounds** and the recently commissioned **Orangutan Enclosure** at the **Melbourne Zoo**. It was an easy one to specify and I did it with confidence knowing Protect Crete would be with us and the contractor all the way through the project." said Damian. "We are distributing more and more of the Protect Crete Range not only in the ACT but all over NSW and Northern Victoria and have every confidence with the range and service".

The **Tidbinbilla Nature Reserve** in the South West ACT
